## DETAILED ACTION

### *Election/Restrictions*

1. Newly submitted claims 11-18 and 20-24 are directed to an invention (i.e., method) that is independent or distinct from the invention originally claimed for the following reasons: The Invention defined by claims 11-18 and 20-24 is drawn to a **method** for cleaning a watercraft speedometer which is independent and distinct from the tool itself (i.e., the apparatus as defined in the amendment filed 20 May 2004, for example) since the apparatus as claimed can used to practice another and materially different process such as cleaning electrical connector elements or cleaning dirt from sport shoe cleats. Further, such a **method** is properly classified and searchable in class 134, subclass 8.

Since applicant has received an action on the merits for the originally presented invention (apparatus), this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-18 and 20-24 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### *Conclusion*

2. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the
